

## 【Norman 的祝賀信】

Dear Yu-Chuan,

I hope that your meeting tomorrow is very successful. I will copy my CA-SRI colleague Amir Kassam so he knows about this milestone event for converging these two agroecological strategies. I don't know if Lucy had enough lead time to post an announcement of your meeting on the SRI-Rice website, under upcoming events, but I am sure that she will be glad to post on the website a report on the meeting if you can draft a paragraph or two on it, and send it to her and me, along with a picture or two (I am sure that you will have some pictures), so we can share this news widely.

I don't know if Keshav would be able to attend, but if he can, he could give some fraternal greetings from the Nepali SRI community. Maybe Yamaji-san will be there to extend greetings from J-SRI in Japan.

Please convey my greetings and best wishes to the attendees of this important event. I hope that this assemblage of diverse colleagues from many disciplines and different institutions will launch effective efforts to make the agricultural sector in Taiwan as a whole, focused on rice but extending to other crops, more productive, more profitable, more sustainable, and more eco-friendly.

With best regards,

Norman
